PROJECT DETAILS

The project consists of constructing a new 4 story residence hall, on the site formerly occupied by Vance Hall, on Fayetteville State University's campus in Fayetteville, North Carolina. The project includes 370 student beds in a configuration of double-bed bedrooms with an internal bathroom. The project also includes two staff apartments. An additional new parking lot to the southwest of the adjacent Renaissance Hall and a new pedestrian crossing over the adjacent railroad right-of-way are included as add alternates.
