SINGLE PRIME CONTRACT

May 30, 2023; 11:00 a.m.

- A. Please record contact information since this is a Mandatory Pre-Bid Meeting.
- B. There will be an addendum sent out after this meeting.
1. Will include sign-up sheet,
 2. Clarifications from this meeting, and
 3. Other items.
- C. Bids
1. Sealed Bids will be received until **1:00 PM on Tuesday, June 27, 2023**, at One Exchange Plaza, 6th floor conference room 1, Raleigh, NC 27602.
 2. Bid to be submitted on the Bid Forms found in the Project Manual. The required bid forms that are in the Project Manual, and that are to be completed and submitted, are as follows:
 - Bidder's Checklist included as the first page of the submitted bidding documents
 - Bid Form (C-410-1 to 10)
 - Form of Bid Bond or Certified Check (Section 00430)
 - Nondiscrimination Agreement (Section 00440)
 - Use of MWBE Businesses (Section 00440)
 - Identification of Minority Business Participation (Section 00440)
 - Affidavit A, Listing of Good Faith Effort, or Affidavit B, Intent to Perform Contract with Own Workforce (Section 00440).
 - Contractor's Certificates, Affidavit of Organization and Authority of Sworn Statement (Section 00441)
 - City of Raleigh – Contractor's Poor Performance Policy (Section 00442)
 - Non-Collusive Affidavit (Section 00443)
 - Notice to Contractor Regarding Intrusions Beyond Project Limits (Section 00444)
 - Evidence of authority to do business in the state of the Project (i.e., copy of contractor's license)
 - Bidder's Checklist (Section 00409)
 3. Once Bids have been opened, the apparent low bidder will be issued a notice, and
 - i. Bidder will have 72 hours to submit Affidavits C or D.
 - ii. These forms can be found in the Project Manual.

- D. Once opened, bids will be tabulated and a certified copy will be sent to all bidders.
- E. Project Specifics:
1. Single Prime Contract and required to have license classification for Public Utilities.
 2. Completion Time and Liquidated Damages
 - i. Substantially complete 300 consecutive days after Notice to Proceed.
 - ii. Final Completion 330 consecutive days after Notice to Proceed.
 - iii. \$1,000.00 per Calendar Day Liquidated Damages.
 3. Project occurs at three sites:
 - All bidders are encouraged perform their due diligence and visit each site prior to bidding to view access and site conditions.
 - i. Heritage Reserve Court Area:
 - Replacement of approximately 58 feet of 8-inch aerial and buried sewer mains and support piers with new 16-inch steel encasement and 8-inch ductile iron carrier pipe and support piers.
 - ii. Hidden Jewel Area:
 - The project access easement was cleared in 2021 by City of Raleigh. City of Raleigh will double check easement access to determine if additional clearing will be needed prior to construction.
 - Replacement of approximately 68 feet of 18-inch aerial and buried sewer mains and support piers with new 30-inch steel encasement and 18-inch ductile iron carrier pipe and support piers.
 - Note the permit requirements in the project manual and plan notes for restoration of the Smith-Austin Conservation Easement within the temporary construction easement at the creek crossing.
 - Project is within the 100-year floodplain.
 - iii. South Wendell Boulevard Area:
 - Replacement of approximately 745 feet of 8-inch aerial and buried sewer mains, support piers and manholes with new 8-inch rigid restraint joint ductile iron pipe, support piers and manholes.
 - Note temporary driveway permit and traffic control requirements on Wendell Boulevard for periods when guardrail is removed and construction entrance at South Wendell location is in use.
 - Project area is within the 100-year floodplain.
 - iv. North Wendell Boulevard Area:
 - Replacement of approximately 489 feet of 8-inch aerial and buried sewer mains, support piers and manholes with new 8-inch rigid restraint joint ductile iron pipe, support piers and manholes.
 - Project area is within the 100-year floodplain.
 4. Contractor shall not allow bypassing of sewage into surface water (e.g. stream, creek, river, ditch, etc.). Contractor is responsible for all bypass pumping required to construct the project as shown. For each of these activities provide a detailed construction sequence showing the bypass pumping arrangement.
 5. Conduct video and photographic inspection of the pre-construction conditions and post-construction conditions for the entire project area, including off site material staging areas and other associated locations.
- F. Comments from the City

1. None.

G. Questions?

- All questions should be sent to Chris Parker at Christopher.parker@aecom.com before 5:00 PM Tuesday June 20th, 2023.
