**Project:** Stough Elementary School Stormwater Repairs

**Dewberry Project 50158826** 

Owner: Wake County Public School System (WCPSS),

> **Facilities Design & Construction** 111 Corning Road, Suite 190

Cary, NC 27518

**Engineer: Dewberry Engineers Inc.** 

2610 Wycliff Road, Suite 410

Raleigh, NC 27607

RE: Addendum No. 2

This addendum, applicable to the work designated herein, shall be understood to be and is an Addendum to the contract documents and, such, shall be become a part of and included in the contract.

## **General Scope Comments:**

- There are no exterior hose bibs or other water sources near the proposed work area; therefore, the Contractor will be responsible to provide a water truck or other means for watering purposes. Fire hydrants may not be used for any means. The Contractor is responsible for their own equipment including but not limited to hoses or watering devices to deliver the water to the work area. All hoses are not to temporary placed in the roadway or within sidewalks and should be left in a safe manner at all times and removed after each workday. (item #27B from Addenda)
- The Contractor shall protect the existing site features to the greatest extent possible all existing site features including fencing, pavement, drives, concrete curb & gutter and sidewalks and repair to existing or better condition if damaged during construction. This includes but not limited to the construction entrance and the haul route being used in and out of the construction site. This will be discussed further during the pre-construction meeting after award.
- As discussed at the prebid, the Contractor will be responsible for securing their work area with safety fencing or other means within the project site in order to prevent staff, students and the public from walking thru the construction area. In addition, these measures must not impact the flow of traffic and the adjacent drives
- The Contractor is responsible for maintaining the existing SCM area grassing throughout the duration of construction including sixty (60) days after the substantial completion of the project. Refer to 'Maintenance Notes' on sheets C101 and C201 for additional information.
- The Contractor is responsible for preparing Stormwater as built certification requirements as outlined on sheets C101 and C201. If the data provided does not meet the volume and design requirements as specified in the contract documents, the Contractor will be required to make modifications to the site work at no cost to the Owner.
  - Note: Bids are due Thursday, February 1, 2024 @ 11AM.
